

## WILSON WELCOMED HOME BY GREAT THROUGHS

NO DECISION IN  
JOHNSON APPEAL  
UNTIL JULY 14Board of Pardons Will  
Not Report Until  
Lowden Returns,

(Special to The Telegraph.)  
Springfield, Ill., July 8.—Henry S. Dixon and Representative John P. Devine argued the case of R. E. Johnson before the Division of Pardons and Paroles today, while State's Attorney Harry Edwards of Lee county opposed the plea for commutation of sentence. Attorneys Dixon and Devine argued that Johnson had been inadequately defended by the young attorney assigned by the court as his counsel.

The Division took the case under advisement and will not report to Governor Lowden until after his return from the Elks convention at Atlantic City, which will be about July 14.

When State's Attorney Edwards left last evening for Springfield to appear before the State Board of Pardons to contest the plea of R. E. Johnson's attorneys for a commutation of his sentence from death to life imprisonment, he did not expect to have any aid. But when he appeared before the board today that body had before it scores of telegrams from many prominent Dixonites, all expressing the belief of the senders that justice could only be fulfilled by a decision sustaining the sentence of the jury and the trial court and permitting the execution to be carried out. Unsolicited, these citizens telegraphed their opposition to the petition which was carried by the negro's attorneys, signed by many people of this city, asking the sentence be commuted.

**Johnson Acts Strangely.**  
At the county jail Johnson has commenced to act strangely. He has developed a habit of calling jail attendants to him, starting a conversation and then rambling on disconnectedly from one subject to another. Observations by the authorities causes them to believe that he is feigning insanity as a final effort to beat the gallows in case his plea before the pardon board today results unfavorably.

RUST INFECTED  
WHEAT ABOUNDS  
IN LEE COUNTYPractically Every Field  
Has Some—Farm Labor Scarce.

County Adviser L. S. Griffith is authority for the statement that practically every field of wheat in Lee county is suffering great damage this year from scab. Several calls have been received at the office in Amboy daily by farmers who have discovered scab in their wheat and reports show that from one-fourth to one-half the fields is affected by the rust. The condition is not improving and all of the wheat fields that have been visited by the adviser have been found to be affected.

The scab in wheat is practically a new infection and starts from a fungus growth, making its appearance in the chaff of the head and being from a white to pinkish color. The scab affects from one kernel to the entire head of wheat and renders the grain practically useless. The infection has been discovered in both winter and spring wheat fields throughout the county.

The disease of the wheat is practically a new one in this section of the state and little is known of its treatment. Farmers are urged to exercise great care in selecting seed wheat. Seed that is absolutely free of scab infection and seed that has been thoroughly fanned and cleaned is advised for planting purposes.

**Farm Labor Scarce**  
Farm labor is scarcer in Lee county at the present time than it has been in the history of farming. Calls are being received daily at the office of the county farm adviser for relief. Farmers at this time are extremely busy in putting up their hay and harvesting is well under way. Wages of from four to five dollars a day with board are offered and no help can be found. Adviser Griffith urges that any one seeking employment communicate with him at his office at their convenience.

Last season in many places, business men were called upon to assist in harvesting the crop of grain and hay. This was resorted to in Lee county and unless some relief is offered at once, this plan may be resorted to again in order to save the crops which will otherwise suffer great loss.

PROF. REEDER  
PLUNGES INTO  
SCHOOL DUTIESNew Supt. Enthusiastic  
in Plans for Union  
District.

Prof. John C. Reeder, the first superintendent of Dixon's consolidated schools, hard at work at his desk in the office at the south side high school building getting ready for the opening of schools, confided to a Telegraph representative this morning some of his hopes and plans for making the Dixon schools second to none in the state.

Prof. Reeder, whose success at Geneseo raised the schools from mediocre work to the highest standard in two years, is a firm believer in the utility of confidence in school work. He believes in having confidence in his teachers, his pupils and the public, and he expects the same confidence to be reposed in him.

**Has Fine Principal.**  
And to that end he has secured an excellent man for principal in Prof. I. B. Potter, teacher of mathematics at the Jacksonville University. The new superintendent knew of Mr. Potter's work several years ago, and has personal knowledge of his great ability. Prof. Potter, who stands over six feet with physique, heart and soul in keeping with his body, was offered more money than he will get in Dixon to remain in the Jacksonville University, but he realizes that the greater opportunities in educational lines are in the public schools, and so he consented to come to Dixon.

**Looking For House.**  
Prof. Reeder, who has spent his few spare moments looking for a suitable house for his family, whom he hopes to be able to move to Dixon about the first of August, will consider that person a Good Samaritan who will put him in touch with a suitable residence. The great amount of detailed work at the consolidation of the schools makes it impossible for him to devote much time to house-hunting; and his earnestness in talking of his schools is full evidence of his complete interest in them and the infatuation he has in planning and executing successful educational work.

**Some Teachers Engaged.**  
Many of the teachers for the schools have been engaged, but there are still vacancies; principal of which are first grade in the north side schools, fifth and sixth grade in the Loveland school, teacher of Latin and French; Art Supervisor and Assistant Manual Training instructor.

The high school course in the north side school will be maintained separately for the coming school year at least, while plans for complete consolidation of the schools are being worked out; but opportunity will be given all pupils to take any course of study they may elect.

Teachers now under contract for the coming year are:

Dorothy Andrews, Physics and Mathematics.  
Frances Ashton, English and Latin.  
Martha Beck, Domestic Science.  
Edna Burnham, Domestic Science and Mathematics.  
Gladys E. Gayler, Principal North Side and French.  
Hilse E. Jurgens, Biology and Science.

I. B. Potter, Principal South Side.

Gen. Mangin, Hero  
of Aisne, Honored

By Associated Press Leased Wire  
Paris, July 8.—General Mangin has been awarded the grand cross of the legion of honor.

General Mangin, one of the most prominent French leaders during the war, first came into general notice by his counter offensive against the Germans in the Verdun region in October 1916. Later he directed the French offensive on the Aisne and was in command of the French and American forces which launched the great counter attack against the Germans on July 18, 1918, between Soissons and Chateau Thierry.

WAGES ARE CUT;  
DENVER RAILWAY  
WORKERS STRIKE1,200 Men Affected By  
Strike Order Voted  
By the Union.

By Associated Press Leased Wire  
Denver, Colo., July 8.—A strike, completely tying up street car service in Denver, became effective at 4 o'clock this morning. Employees of the Denver Tramway company went on strike as the result of a wage reduction announced by the company yesterday.

The vote was 976 for and two against the strike.  
Frederick W. Hild, general manager of the tramway company, said that an attempt would be made to run the cars with outside help. Mayor Bailey would not promise assistance to the company. He said the police only would see that no violence occurred.

The company ordered a reduction in wages as the result of the supreme court decision yesterday upholding the right of the city to fix rates. An ordinance reducing the fares to five cents was effective last Saturday.

A maximum wage of 70 cents an hour and recognition of the union was incorporated in demands to the made of the company by the strikers. The previous wage scale was 48 cents an hour and a reduction announced by the company yesterday was to 34 cents an hour.  
Company officials concede that the new wage scale is insufficient but declare the reduction was the only alternative to a receivership. They declare the company has not paid dividends for several years.

AGREEMENT FOR  
KAISER'S TRIAL  
NOT BE CHANGEDParis Arrangement Only  
Tacit One, But it  
is Binding.

By Associated Press Leased Wire  
Paris, Monday, July 7.—(Delayed)—The agreement reached by the allied council that the trial of former Emperor William would be held in London, as announced by Premier Lloyd George in the house of commons last week was a tacit one, but from American sources it was learned late today that the agreement was regarded as binding.

What purports to be an authentic account of the incident in the council upon which the British premier based his statement, has become available from a usually reliable source. It is stated that at a meeting of the council last week the British premier said to his fellow conferees something about as follows:

"I suppose you have no objection to the trial of the kaiser in London."

The premier looked around the circle, the account continues, and no one objected. Indeed, it is said, Premier Clemenceau gave his verbal approval.  
This tacit agreement was never recorded in writing and Sir Maurice Hankey, the British secretary, did not include it in his regular report of the proceedings in the council. The assumption is, however, it was added, that Premier Lloyd George later had unofficial conversations on the subject with one or more members of the council.

ALLIES APPROVE  
KOLCHAK'S PLAN  
IN RUSS AFFAIRSPetrograd Attack By  
Finns and Loyal Russians, Plan.

## BULLETIN

By Associated Press Leased Wire  
Paris, Monday, July 7.—Approval of a plan for a concerted attack upon Petrograd by Finnish troops and the forces of the Kolchak government, at Omsk was given today by the council of five.  
A joint note has been sent to the military attaches of the United States, Great Britain, France and Italy at Helsinki instructing them to support the Finnish government if it decided to accede to the request of Admiral Kolchak to assist him in the campaign.  
There is no indication that the allied and associated powers propose to go further at this time in helping Kolchak's plan, but their action in supporting the Finns is regarded as equivalent to assurances that they will see the Kolchak movement carried through.

Petrograd has been the object of the attacks of Finnish, Estonian and Russian volunteer troops for several months. A few weeks ago the Estonians and Russian volunteers were closing in on Petrograd but an announcement made in Copenhagen Monday by the Estonian bureau said that the troops which had been advancing on Petrograd had suffered a reverse and were in retreat. The anti-bolshevik forces were reported to have abandoned several positions along the coast of the gulf of Finland and the Petrograd-Narva railroad.

Admiral Kolchak's plan probably does not anticipate the use of the Siberian armies which have been fighting the bolshevik west of the Urals. At present the Kolchak forces west of the Urals are more than 800 miles east of Petrograd. It is likely that the Finns will be joined by Russian volunteer troops and forces of the north Russian government at Archangel.

The north Russian government has agreed to co-operate in military operations against the bolshevik while retaining local autonomy.  
Finnish troops are within thirty miles of Petrograd on the north, while forces of the north Russian government are operating in the southern part of the province of Olonetz, northeast of Petrograd.

## REDS TO LEAVE PETROGRAD

By Associated Press Leased Wire  
Washington, July 8.—Frank L. Polk, acting secretary of state, who returned today from a week's vacation with his family at Southampton, L. I., declined to say whether he would go to Paris to take Secretary Lansing's place at the peace conference. He said he would discuss the matter with President Wilson and would make a statement later.  
Mr. Polk said Mr. Lansing would return to Washington soon, but that the exact date of his departure from Paris had not been determined.

FAST MAIL TRAIN

The North-Western fast mail train No. 9, due through Dixon shortly before midnight, was late last night and made an exceptionally fast run between Nachusa and Sterling, speeding through Dixon at a rate of over a mile a minute. The run from Nachusa to Sterling, a distance of 18 miles was made in 16 minutes, and it was necessary for the train to check its speed materially while passing over the interlocking plants in the Nelson yards.

BRITISH DIRIGIBLE TO  
LEAVE WEDNESDAY ON  
RETURN TO ENGLANDR-34 is Prevented From  
Starting Today Due to  
Some Repairs.

By Associated Press Leased Wire  
Mineola, N. Y., July 8.—The start of the return trans-Atlantic cruise of the British dirigible R-34 was today deferred from early tomorrow morning, the hour which had been fixed for her departure, for at least fifteen and possibly 24 hours.

By Associated Press Leased Wire  
Mineola, N. Y., July 8.—Major G. E. M. Pritchard, executive officer of the R-34, after inspecting the dirigible's engines at 9 a. m. today said all repairs would be completed by 9 o'clock tonight and that fuel, water and other supplies would be taken aboard before midnight. With favorable weather he said the R-34 will be ready to start at daylight tomorrow.

Major Pritchard said the airship would take the southern track, four or five hundred miles north of the Azores, in view of a favorable forecast of "clear" weather for the next 48 hours, made by the weather bureau in Washington and received here this morning. For one-third of the course on the way over, it was said, the R-34 probably would strike northerly cross winds which would not retard her very much. The remaining distance, it was stated, favorable westerly winds would prevail.

## HUNDREDS VIEW BALLOON

By Associated Press Leased Wire  
Mineola, N. Y., July 8.—The enforced stay of the giant British dirigible R-34 made necessary by unfavorable weather reports covering the next 48 hours and repairs to her motors, brought hundreds of visitors to Roosevelt field today. The big airship will not take off on her return trip across the Atlantic ocean until after dawn tomorrow. In making the announcement concerning the return cruise, Brigadier General E. M. Maitland, special representative of the British air ministry aboard the dirigible positively declared that the R-34 would start tomorrow morning, "wind or no wind."

On its homeward journey the R-34 will carry 25 pounds of mail.

COL. BRINTON  
REMEMBERED BY  
GRANDY WORKERSMake Him Guest of  
Honor at Banquet—  
Watch Presented.

Col. W. B. Brinton of the former Grand Detour Plow company, was the victim of several coincidences yesterday afternoon and evening when he was taken entirely by surprise by the office force and factory foremen at the Hotel Sheffield in Grand Detour. Early in the afternoon, the Colonel was invited to be the guest of W. J. McAlpine in an automobile ride which was to terminate at Oregon in the evening with a supper.

Mr. McAlpine furnished the car and drove north of Polo, entirely losing his guest as to directions and location. About 6:30 last evening the car drove up to the Sheffield hotel in Grand Detour where it was agreed that the two would eat supper instead of proceeding to Oregon.

As Col. Brinton and his host entered the dining room, the former was greatly surprised at seeing all of the members of the office force and the factory foremen seated at two long tables, prettily decorated and patiently awaiting his arrival. After expressing his surprise, he was seated and enjoyed a most delightful banquet. At the conclusion of the festivities, Supr. R. C. Caghey arose and in a few well selected words, presented the guest of the evening with a beautiful solid gold watch and chain, suitably engraved as a mark of the high esteem in which Col. Brinton is held by his employees.

This was another chapter to the afternoon of thrills and came as a complete surprise. Col. Brinton responded to the presentation. The gathering was a very happy one and a feeling of no only fine business relationship, but of friendship existed throughout the evening. The banquet marked the passing of the Grand Detour Plow company which was purchased a short time ago by the J. I. Case company.

The banquet was a memorable event, one that will not be forgotten by those who attended. No effort was spared by Mr. and Mrs. Charles Sheffield in making the affair a success in every way. The tables were prettily decorated in pink roses and ferns.

Washington, July 8.—Prohibition enforcement legislation as framed by the judiciary committee was made a special order of business in the house today by the rules committee with an agreement that general debate should not exceed 12 hours.

# SANDRA THE JEALOUS

By JANE PHELPS.

## EVERETT TAKES HIS BRIDE HOME CHAPTER XIV

We went to Hendon the next day. Everett had told me he had a home ready for me. I gave it very little thought. He was old enough to have a home. He had mentioned a housekeeper. So I supposed, if I thought of it at all, that he had kept a bachelor establishment.

It was a big house, with a good sized lawn. The day was cold and blustery when we arrived, and I only noticed that all the houses on the street were rather handsome, and bore some resemblance to each other.

"This is to be your home now," Everett said kindly as we walked up the steps. "I couldn't help wishing he had waited until he had gone in then when he was in his prime," said Sandra. "Welcome home, Darling," as the man had said in a story I had read. You see I was so totally without experience of men, men of Everett's age, that I had to compare him to story heroes. I couldn't picture him doing as the home boys would have done. Someway I never thought of comparing him to my father. Yet my father was the only man I had known really intimately who was near my husband's age.

I imagine I wanted to make myself feel that he was younger than father.

The housekeeper came to meet us when Everett opened the door with his key. A nice looking young maid stood back in the hall, smiling a welcome. I was glad to see her. She was so young, you know—that I scarcely replied to the housekeeper's greeting, but rushed up to her and asked her name. "I'm Hetty, the waitress and upstairs maid," she replied. She looked pleased too. I suppose she saw that I was young. But the housekeeper looked annoyed. I didn't know until afterwards that she had not been told of her employee's marriage until we were in New York; nor that she feared that she would either lose her place or be bossed by a "chit of a girl" as Hetty said she called me. She needn't have worried. I couldn't have run that big house to have saved my life—not then.

"Hetty will show you your room," Mrs. Gray—that was the housekeeper's name—told me in a kind tone. Glad to escape, I followed Hetty with alacrity, leaving Everett talking earnestly with Mrs. Gray.

"Oh how lovely!" I exclaimed, when Hetty switched on the lights and drew the curtains, so shutting out the wind

and the sight of the rain.

The room was lovely. It was done in soft grays and pale rose. Everything a woman could possibly wish. A dainty dressing table covered with lace, and littered with costly toilet articles; mirrors, reading table and lights, a cute little desk with an ornate clock ticking softly on it; lounging chairs; a chaise-louche, hassock of soft pillows for the feet. And to my delight, a fireplace with a gas log, which Hetty lighted.

"Shall I help you unpack, Ma'am?" Hetty asked. She had scarcely taken her eyes off me.

"Please. But why do you look at me so hard?"

"Why—you are so young," she stammered, embarrassed.

"You are young too. How old are you?"

"I'll be nineteen come spring Ma'am."

"So will I!" I exclaimed, pleased without stopping to analyze the reason. My eyes were glued to the picture of a wonderfully beautiful woman on the wall.

"That's why I said you were so young to be married. You do not look as old as me. Mr. Graham is so much older too. We thought his new wife would be like—"

"Hetty! Hetty!" the housekeeper's shrill voice interrupted her and leaving her sentence unfinished she hurried down stairs.

I smiled to myself at her calling me a "new wife." She had said "his new wife" and thought I would probably be like some old woman. I must remember to ask her whom she thought I was like, rather than what she thought I was like.

And who could be the original of the lovely picture?

I selected a white dress, one of my trousseau, to wear this first night in my new home. I knew mother would be pleased to have me wear it instead of one of the more expensive and elaborate ones Everett had bought me in New York. I thought of what Hetty said about my looking even younger than she did, and piled by hair on top of my head instead of in the knot on my neck, or the braids as mother like me to wear it. But I imagined it made me look older. It did make me look taller which was not at all necessary.

"What possessed you to comb your hair like that?" Everett asked. "It looks as if it might tumble down any minute. If dinner were not all ready and I hungry, I would send you directly up stairs to do it over."

the grading for streets and sidewalks is now ready.

It was the original plan to lay cement sidewalks around the plat and connect the present brick paving with a concrete boulevard. The water extensions have been laid and everything is now in readiness for the laying of the walks and the paving. Attorney Leech is looking over the cement paving now in progress in Dixon.

## WOMEN'S CLUB MEETING.

The regular annual meeting of the Amboy Women's club is being held this afternoon at Green River park. The program started at 2 o'clock this afternoon with several special numbers. Following the business session, the husbands of the ladies will join them in a basket supper to be served at 6 o'clock. A ball game is planned to be played after the supper hour between the guests of the evening.

## TO ATTEND CONFERENCE.

County Superintendent W. B. Holliday and wife left today for Lake Geneva, where Mr. Holliday will attend a two weeks conference at the national Y. M. C. A. training school. At the conclusion of the conference, Mr. and Mrs. Holliday will make an automobile trip through northern Wisconsin, returning to Amboy about August 10 to take up his duties.

Charles Ortsgesen and wife left Sunday in their new Chandler car for Milwaukee, Wis., where they will visit with friends and relatives. They were accompanied by Miss Esther Barton and David Barton.

## OLD RESIDENT GIVEN UP BY PHYSICIANS

"Given up by five doctors, my only hope an operation. I rebelled on cutting me open, as I am 75 years old. A neighbor advised trying May's Wonderful Remedy for stomach trouble. I got relief right away. I had not eaten for 10 days and was as yellow as a gold piece. I could have lived only a few days but for this medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

## Willard Was Knocked Down Seven Times in First, Movies Reveal

By Associated Press Leased Wire  
Denver, July 8.—All doubt concerning the number of knockdowns Jack Dempsey scored in the first round of his heavyweight championship contest with Jess Willard, July 4th was removed today when motion pictures exhibited privately to Promoter Tex Rickard and a party of friends revealed that the de-throned champion was sent to the canvas seven times.

There were no knockdowns in the remaining two rounds, but Willard probably would have been felled if the ropes of the ring had not supported him.

No Statement on Crowd  
Dempsey, the pictures revealed, felled Willard with left hooks to the chin for the first four knockdowns. He upset the defeated champion for the other three knockdowns with right and left swings. The first blow that upset Willard was a short right swing to the heart followed by a left hook to the chin. Clerks are finishing the task of checking up the gate receipts and attendance of the match and Rickard hopes to be able to issue an official statement today.

the opening of the office the first of next month.

With the news of a new postoffice location affording much more room and modern equipment, word was received by Postmaster Harvey a few days ago, announcing the fact that the Amboy office has been rated as a second-class office. The volume of business handled through the office has brought on this reclassification by the postoffice department.

## Bank To Build.

The First National bank of Amboy has outgrown its present quarters and is to expend several thousand dollars very soon toward enlarging and beautifying its building. The Canadian dry goods store, next door west of the present location, has been purchased and at a recent meeting of the board of directors it was unanimously voted to proceed with plans for the erection of a modern banking institution.

Plans for the new structure which will occupy both the present site and that of the Canadian store buildings are being prepared by competent architects and will be submitted to the directors as soon as completed. Mr. Canavan will doubtless seek a new location on Main street which will be overhauled, thus improving the business center of Amboy greatly. Work will probably not be started on the improvements, however, before early next spring.

who expected to reap a rich harvest from the crowd at the Fourth of July contest lost heavily. Ad Q. Thatcher, match maker of the Toledo boxing commission, who converted an abandoned five story building into a sleeping dormitory said he lost \$1100 on the venture. The night of July 3, there were only nineteen persons registered. Twelve of this number succeeded in avoiding the clerks who were supposed to collect \$5 from each sleeper.

One concessionaire who invested \$900 in peanuts sold \$70 worth. The lemonade concessionaire lost heavily because the soldier ushers would not permit vendors among the crowd. And without lemonade the crowds refused to eat peanuts.

**Nears Jersey at 11:40.**  
With a naval dirigible hovering over her the George Washington came in sight of the Jersey highlands at 11:40 a. m. The president's transport is flying a huge American flag from the stern, the president's flag from the main truck and smaller flags on the fore and mizzen mast heads. A sea plane which went out to meet the transport was forced to come down on the seas.

The George Washington and her convey passed Ambrose lightship at noon, led by the battleship Pennsylvania with Secretary of the Navy Daniels and a party of other government officials on board.

### BIG NAVAL ESCORT

**By Associated Press Leased Wire**  
New York, July 8.—Four dreadnoughts and 36 destroyers from the Atlantic fleet formed the escort that met the United States naval transport George Washington, with President Wilson aboard, 30 miles east of Sandy Hook early today. The presidential salute from these vessels was the first of the many welcoming ceremonies awaiting the president on his arrival this afternoon.

In the harbor were 45 warships, headed by the flagship Pennsylvania with Admiral Henry B. Wilson aboard, assigned to join the out-harbor escort. Vice President Marshall and members of the cabinet were assigned to the Pennsylvania while the city's official wel-

coming party, headed by Mayor Hyman and Governor Smith, were passengers aboard the municipal steamers Patrol and Correction.

### Children Sing Welcome

On duty for the president's arrival were 1100 policemen from the Jersey City and Hoboken forces and several thousand school children were formed in River street to greet the president with "The Star Spangled Banner" as he left the George Washington to embark for Manhattan on a special ferry boat. Immediately after the welcoming exercises in Carnegie Hall, President Wilson will take a special train for Washington.

The police arrangements for safeguarding President Wilson during his two hours stay in New York are the most elaborate ever planned for the safety of a chief executive.

## General Exodus of Americans is Begun in Rhine Territory

**By Associated Press Leased Wire**  
Coblenz, Sunday, July 6.—Individuals and the smaller units of the old third army are losing no time in getting out of Germany. All trains are crowded with casuals and sleeping car reservations from Coblenz to Paris are booked a week ahead.  
The Fifth division began moving from Luxembourg, Friday and the Fourth division is scheduled to leave the Rhine sector Tuesday. Next scheduled to move in the direction of home is the second division, due to leave the east bank of the Rhine July 15. The officers' club, which played an interesting part in the history of the American occupation was closed Saturday night. The club headquarters were in the casino of a private German club, one of the finest on the Rhine. In the six months it was used by the Americans, many notable persons were entertained, including the Prince of Wales, and General Pershing who dined with welfare workers and telephone girls in the spacious ball room. Despite efforts not to make money, the club has 200,000 marks on hand which will be divided between the Salvation Army and army relief associations handling funds for the families of enlisted men.  
The Amerco News, the army's daily will cease publication July 15, after an existence of three months. The newspaper made money from the beginning and will quit with a surplus of more than 250,000 marks, which also will be contributed to some charitable organization interested in army work.

## Maxwell: advanced by fine engineering

FIVE decided improvements have been made in the Maxwell. One makes it look better. Another makes the electrical unit far more efficient. A third makes the engine run sweeter, steadier, and gives it advanced economy. A fourth adds a comfort in seating. A fifth produces increased durability in the top.

You get a Maxwell now with the famous Hot Spot and Ram's-horn and you find a rare delight in more power and more mileage at the old-time cost.

But it isn't a new model Maxwell. For this car is merely the chassis of five years ago with all the advances made in fine engineering.

This is the original chassis model of which 300,000 have been built to date—300,000 all alike basically, but each one better than the previous one.

Thus you get a sound, safe, extremely reliable car, refined to a degree, and at the same time you get the new improvements. And the price is only \$985 f. o. b. Detroit.

## CAN'T PUNCTURE NOR BLOW OUT

DAYTON AIRLESS TIRES in the past 7 years have been used by thousands of owners of light passenger and delivery cars in all parts of the civilized world, and have conclusively demonstrated:

- 1st—They can't puncture nor blow out.
- 2nd—They ride as smoothly as pneumatics.
- 3rd—They give much longer wear than the average pneumatic.
- 4th—They absolutely will not injure the car.

They have been endorsed by 100,000 or more satisfied users, including the late George Westinghouse and Edward Grey, formerly Chief Engineer of the Ford Motor Company.

Piers of live, elastic rubber built about one inch apart inside the casing and vulcanized or welded to it take the place of an inner tube.

Nothing can happen but wear.

They are made only in 30x3 and 30x3½ sizes but can be used on cars using 31x3.

Write or phone about them as I am the exclusive dealer in this territory.

### AN ANTI-VIVISECTION BILL.

The Meyers bill, introduced in con-  
gress, making it a crime to vivisect the  
dog, carries into the open and vocifer-  
ous forum of public debate a question  
that has disturbed the friendly relations  
of doctors and dog-lovers for decades.

There are all shades and degrees of  
opinion on the subject, all coming at  
last to the prime consideration of  
whether it is right under any circum-  
stances to endanger, or take the life of  
one living being for the sake of another.

So many of the sound principles of  
modern surgery have been established  
by experimentation on dogs, cats,  
monkeys and other animals, to the very  
great benefit of human beings, it will  
be rather hard for the anti-vivisection-  
ists to hold their ground, particularly  
if they are still eaters of chops from  
the innocent lamb and steaks from the  
cunning calf.

### PROTECTING THE BIRDS.

In 1900 there were only nine states in  
this country which had laws protecting  
birds. Now there are only three states  
that lack such laws.

The making and enforcing of the  
laws have done much to call the atten-  
tion of the people to the fact that most  
wild birds are a delight and a blessing,  
left alive, and only an evidence of rap-  
acity and barbarism when they are  
killed and worn upon hats.

### ODDS AND ENDS.

**ROCK ISLAND**—Rev. James T. Mor-  
dy of Richland Center, Wis., has accept-  
ed a call to the Central Presbyterian  
church, to succeed Rev. David A. John-  
son, who goes to New Haven, Conn.

County Tuberculosis sanitarium and is

confessed to three holdups in Aurora.  
He held up and robbed Bert Smithson,  
Dick Burnett and Reginald Mushrush

is held under \$5000 bonds.

**ST. CHARLES**—Two barns and oth-  
er buildings on the Charles Hustine  
farm near here were destroyed by fire  
at a loss of \$15,000. The blaze is believ-  
ed to have resulted from spontaneous  
combustion.

**OTTAWA**—Ottawa has been selected  
as the headquarters for district No. 3  
of the state highway department for all  
federal aid and state aid highways. En-  
gineer J. E. Huber will be in charge of  
the work in eight counties.

**BEAUVILLE**—Farmers of Popular  
Grove and vicinity have formed a farm-  
ers co-operative company and have pur-  
chased the Webster elevator at Popular  
Grove. E. B. Greenlee is president of  
the company.

**OTTAWA**—Joseph Brezina, a prop-  
erty owner of LaSalle, has just com-  
pleted a year's sentence in the county  
jail rather than pay his wife \$20 a  
month alimony after a divorce had been  
granted.

**FREEPORT**—Chief of Police Root  
was asked to go to Harvey in Ogle  
county to seize 16 barrels of liquor. It  
was out of his jurisdiction and the  
complainant took his case up with the  
U. S. Marshal.

### CATHOLICS WON FROM LUTHERANS BY SCORE 19-14

The Catholic team in the twilight  
baseball league won its game from the  
Lutherans last evening by the score of  
19 to 14. The contest was loosely play-  
ed and was won by the Catholics by a

Lutherans had a safe lead. Brooks  
pitched for the Lutherans and Allen for  
the Catholics. This evening the Pres-

## BETTER RESULTS BY U. S. CONTROL OF ROADS, CLAIM

### Joseph Eastman, Member of I. C. C. Opposes Their Return.

By Associated Press Leased Wire  
Washington, D. C., July 8.—Better re-  
sults in transportation can be obtained  
by maintaining and improving federal  
operation than by returning "to old  
methods in whatever guise," Joseph B.  
Eastman, member of the interstate  
commerce commission declared today  
in a communication to the senate inter-  
state commerce committee. He was not  
not a member of the commission when  
the commission's views on the railroad  
situation were given the committee last  
winter.

Mr. Eastman declared that federal  
control of the roads should continue so  
as to ensure necessary capital at low  
cost; to avoid unduly high rates; to  
solve the problem of the "weak" roads;  
to obtain the operating advantages  
which come from unification, and to  
promote right relations with labor.

**Guarantee No Dividends.**  
Guaranty of dividends was opposed  
by Mr. Eastman as a "mongrel and  
unsatisfactory arrangement" which  
would impair private initiative.

"As for raising rates" the commis-  
sioner continued in discussing the need  
of the roads for capital, "there never  
was a time when conservatism was  
more desirable. We have had ample  
reason of late to fear the coming of an  
endless chain of rising wages and  
prices. Increases in freight rates have  
results more far reaching than many  
realize, affecting as they do the price  
both of the raw material and of the  
finished product. The roads have re-  
cently been operating with earnings  
which would drive many of them to  
bankruptcy if they were in private  
hands; but the director general has felt,  
and I think wisely, that the depression  
may be the temporary result of the un-  
certainty following the cessation of  
hostilities and that the country can bet-

ter afford, for a time at least, to carry  
the burden of insufficient revenues  
through taxation, as a part of the war  
cost, than to suffer further advances in  
rates whose ultimate effects no man  
can foretell.

**Would Stabilize Labor.**  
"Coming to the labor problem, the  
fact that further raising of rates could  
more easily be avoided under national  
operation would in itself make the labor  
situation less difficult, for advances in  
rates and wages are apt to go hand in  
hand. But I also believe that the gov-  
ernment can deal with the problem with  
a stronger and surer hand than private  
operators and, under present conditions  
more easily secure co-operation."

## ITALIAN RULER LAUNCHES DRIVE ON PROFITEERS

### Issues Decree to Halt Robbery of Starving Population.

By Associated Press Leased Wire  
London, July 8.—King Victor Em-  
manuel of Italy has issued a decree that  
profiteers will be in future fined 10,000  
lire or sentenced to from three months  
to three years in prison and will in ad-  
dition suffer confiscation of the goods,  
according to a Rome dispatch to the Ex-  
change Telegraph company. Unauthor-  
ized middlemen dealing in food will suffer  
similar punishment, it is said.

The dispatch states that a general  
strike was declared in Naples on Mon-  
day. After looting outlying stores, in  
that city, a crowd attempted to reach  
the center of the police. At Palermo the  
police have arrested 476 former convicts,  
who are alleged to be responsible for  
many of the disorders on Sunday.

**MODERN EDITION GYPSY WAGON TO MAKE STOP HERE**

**Chicago Artist Will Make Novel Tour of the World.**

Chicago, Ill., July 7.—With his modernized, motorized studio on wheels, **Hugo D. Pohl, Chicago artist,** has mapped plans to paint the United States and every part of the world he can reach during a three year tour. He left Chicago Sunday with his wife in their movable, four wheel bungalow, which has been fitted up with all the conveniences of a flat.

Artist Pohl hasn't missed a thing in preparing for his long trip. There's a vest pocket sized gas stove guaranteed to cook tasty viands, a folding table, kitchen utensils, a 15x17 galvanized iron bath tub, comfy cushion bed, tool chest, medical compartment, and two lounging chairs.

If he thinks of anything else from here to the Sahara, or wherever he may land, he'll annex it to the bungalow. He has built a compartment under the seat for his studio supplies.

**He Built It Himself.**

With the exception of the wheels and body of the machine, which have come from a well known auto factory, the rolling flat is the work of Pohl's hands. As a carpenter and plumber, he says, he's a pretty good artist, but the finished product satisfies the "missus" and that's all that's necessary.

The contrivance chugged out of Chicago without ceremony. The first stop will be made at DeKalb. Thence the bungalow will move to Dixon, Davenport, Des Moines, Lincoln, Denver, and Estes Park, Colo., where Pohl owns a ranch. He intends to spend several weeks there, transferring the beauties of the Rockies to canvass via the brush.

A liberal stopover will be made at

## SEPTEMBER CORN REACHED HIGHEST PRICE OF SEASON

By Associated Press Leased Wire  
Chicago, July 8.—Corn displayed fresh strength today, and for the September delivery reached the highest price yet this season. Continued record breaking advances in the hog market tended to stimulate bullish sentiment, and so too did scantiness of arrivals here. Besides, European demand for corn in Argentina was a handicap to the bears. Opening prices, which ranged from 1.89½ to 1.89½ and Dec. 1.61½ to 1.61½, were followed by a temporary sag and then by moderate gains all around.

Oats were steadied by the firmness of corn. After opening 71½ to 71½, the oats market fell back a little, but soon hardened again.

Provisions were easier owing to lack of buying orders. The bulk of trade was in lard.

Subsequently buying on the part of commission houses with eastern connections more than offset sales to realize profits. The close was nervous, 3½ to 4½ net higher, with Sept. 1.92½ to 1.92½ and Dec. 1.61½ to 1.61½.

## Stock Prices Today Have Confident Tone

By Associated Press Leased Wire  
New York, July 8.—Dealings on the stock exchange reflected a more confident tone during the morning, traders evidently disregarding adverse money conditions. Petroleum continued to feature the advance, pan-American and Mexican extending their gains to about four points each. Local utilities strengthened on the proposed two cent transfer.
